Subject: RE: meeting?

I did consult with folks here – we are really not ready to discuss a settlement with anyone yet. I appreciate the offer of assistance and will contact you as we make more progress.

Subject: meeting?

Hi Alice: Just a friendly reminder that Bridget and I would really like to come and have an informal Passaic River-related meeting with you. The purpose of the meeting would be to help PVSC determine if there are some technical areas of pursuit (water quality, risk assessment, for example) that PVSC might consider initiating to help defend the anticipated proposed settlement between PVSC and EPA.

I look forward to talking to you.

Thanks, Mick
